

Instructions for applying Dream Cream™

Place a small amount of Dream Cream™ on a finger and massage gently around the clitoris and vagina, paying particular attention to the underside of the clitoris, mucus membrane. You can do this together. Continue to massage the clitoris using Dream Cream™ as required. Every woman's response is different – some women will get even better results after two or three applications. You can apply the cream as often as desired. Dream Cream™ is water based, therefore harmless to synthetic or rubber materials, or if swallowed.

ENJOY!

For further information about the Dream Method™, please consult www.dreamcream.com.au

Dream Cream™ is not a medicine, or a lubricant product, it is a cosmetic. It is not intended to diagnose, treat or cure any medical condition or disorder. It is a fun lifestyle product for every woman.

The Dream Method™ *Discuss *Relax *Enjoy *Attitude *Massaging with Dream Cream™

THE DREAM METHOD™ in conjunction with Dream Cream™ has been created by a devoted, caring & professional team. We are extremely proud of the contribution we have been able to make to date in this most important and fundamental area of human relationships.

Power Health receives many, many calls & emails of thanks and congratulations for making such a product readily available to women.

"Men have had it good for years.
Ladies, now it's your turn."

This whole program aims at enhancing relationships at the most basic level. Power Health is committed to providing products that allow women to experience greater pleasure in their relationships.

Dream Cream

Take your lovemaking to a higher level

90% of women trialled noticed
an immediate improvement in
their sexual response*.

Finally a product that can help.

There has long been the need for many women in particular to get more enjoyment from lovemaking.

Power Health Australia Pty Ltd conducted a Nationwide Study of 200 couples. Emphasis was placed on intimacy before and after using the Dream Method™ with Dream Cream™. The results of this Study were published by RMIT University (Royal Melbourne Institute of Technology). It showed that using The Dream Method with Dream Cream dramatically increased women's sexual arousal, comfort and pleasure during intercourse.

Results on women surveyed:

Sexual Arousal	Increased by 76%
Vaginal Lubrication	Increased by 73%
Ease of Orgasm	Increased by 57%
Intensity of Orgasm	Increased by 53%
Feelings about Relationship	Increased by 53%
Use Cream Again	70%+ said 'yes!'

Dream Cream was developed using Nobel prize winning research (1998) and Modern Science.

Nobel Prize Research established that “the Nitric Oxide Pathway is the major link between the brain and the genitals. As the blood flow increases here, sexual arousal and orgasm tends to follow.”[†]

Dream Cream™ has been scientifically formulated using natural L-Arginine and is used as part of The Dream Method to stimulate the natural body processes, which will increase and allow greater arousal, lubrication and overall sexual enjoyment.

Maximise your intimacy potential

Please note that it is important to follow “The Dream Method™” as advised by Dr. Hickman PhD (Sex Therapist).

Discuss talk to your partner about your intimate needs.

Relax make sure that you are both relaxed in a comfortable place.

Enjoy allow yourself to enjoy the experience and emotion. Share the feelings with your partner. Make sure both partners are ready to move forward.

Attitude appreciate each other's needs, respect each other's responses, move forward together – TALK.

Massaging Apply Dream Cream™ as part of foreplay, continue to massage, allowing ten minutes for the maximum effect.

Follow instructions overleaf.

“The Dream Method with Dream Cream can offer better enjoyment for both parties during sex. Adding the Dream Method with Dream Cream to your lovemaking will help ensure greater comfort and pleasure in intimacy.”

Dr. Brian Hickman PhD.

Finally a product that may help.
